

Hydraulic Cylinders

- ▶ Bore Ø 40 - 400 mm
- ▶ Stroke upto 4000 mm
- ▶ Working Pressure upto 350 kg/cm²
- ▶ Standard & OEM specifications

Telescopic Cylinders

- ▶ Single/Double Acting upto 3/5 Stages
- ▶ Working Pressure upto 350 kg/cm²
- ▶ Stroke upto 4000 mm

Cylinder Reconditioning

- ▶ Overhauling & Reconditioning of Earthmoving & Industrial Cylinders
- ▶ Pressure & Load Tested
- ▶ 100 % original performance
- ▶ On-Site Service

Hydraulic Power Pack

- ▶ Flow up to 600 LPM
- ▶ Tank Capacity upto 2000 litres
- ▶ Elements from Reputed Manufacturers
- ▶ Circuit as per Customer Application
- ▶ Higher Performance & Durability

Pneumatic Cylinders

- ▶ For Industrial & Custom Application
- ▶ Bore Ø 25-250 mm
- ▶ Stroke upto 3000 mm
- ▶ Working Pressure 8-20 kg/cm²
- ▶ Standard & Custom Mountings

Competitive Edge

- ▶ Unbeatable Quality
- ▶ Competitive Pricing
- ▶ On-Site Service
- ▶ On-Time Delivery

RAX HYDRAULICS designs and manufactures standard & custom built Hydraulic & Pneumatic cylinders for various applications, including -

- Steel Mills**
- Material Handling Equipments**
- Cement Plants**
- Construction Equipments**
- Mining, etc.**

RAX cylinders are quality designed, precision machined with high performance and durable sealings.

With two manufacturing locations, one each in Jamshedpur & Bangalore, RAX has pan-India presence of customers.

With an overhauling unit at Jamshedpur, RAX also caters effectively and quickly to mining and heavy industries located in East India.

RAX's motto is 100% commitment to customer satisfaction through Innovative Solutions and Quality Engineered products. RAX has delighted its customers by prompt service and timely delivery.
